Notes to the Financial Statements

1. General Information

This financial report covers the Aussie TEP Fund (the “Fund”). The Fund was established on 6 February 2019 with the first units being allotted to unitholders on 12 August 2019. It is an unregistered managed investment scheme which invests in a portfolio of life policies which have asset values and fixed maturity dates. These are known as traded endowment policies (“TEPs”).

The trustee of the Fund is One AR Pty Ltd (ACN 602 601 776) (the “Trustee”), an authorised representative (Authorised Representative No. 471702) of One Wholesale Fund Services Limited (ACN 159 624 585; AFSL 426503). The Trustee is also an authorised representative (Authorised Representative No. 1274689) of The Outlook Group Pty Ltd (ACN 105 079 696; AFSL 253119) (the “Supplier”), limited to its role as trustee of the Fund.

The Trustee’s registered office and principal place of business is Level 16, Governor Macquarie Tower, 1 Farrer Place, Sydney NSW 2000.

The Trustee has appointed Aussie TEP Management Pty Ltd ACN 126 373 000 (the “Manager”) as the investment manager of the Fund. The Manager is an authorised representative (Authorised Representative No. 1269067) of the Supplier. The Supplier purchases TEPs, the assets of which are acquired by the Fund.

The financial statements were authorised for issue by the directors on the date the Trustee’s declaration was signed. The directors of the Trustee have the power to amend and reissue the financial report.

2. Adoption of New and Revised Accounting Standards

a) Adoption of new and revised accounting standards

The Fund has applied the following standards and amendments for first time for their annual reporting period commencing 1 July 2021:

- AASB 1060 General Purpose Financial Statements - Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities
- AASB 2020-2 Amendments to Australian Accounting Standards - Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The Fund adopted AASB 1060 General Purpose Financial Statements - Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities in the current year. Other than the change in disclosure requirements, the adoption of AASB 1060 has no significant impact on the financial statements.

The other amendments listed above also did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

b) Standards and Interpretations in issue not yet adopted

Standards and Interpretations that are not expected to have a material impact on the Fund have not been included.

Notes to the Financial Statements

3. Significant Accounting Policies

The following significant accounting policies have been adopted in the preparation and presentation of the financial report.

a) Statement of Compliance

These general purpose financial statements of the Fund have been prepared in accordance with the requirements of the Corporations Act 2001 and with accounting standards issued by the Australian Accounting Standards Board (AASB) and interpretations issued by the AASB Interpretations Committee (AASB IC) applicable to entities reporting under AASB. The financial statements comply with Australian Accounting Standards - Simplified Disclosures as issued by the AASB.

b) Basis of Preparation

This general purpose financial report is presented in Australian dollars and has been prepared on an accruals and historical cost basis except for TEPs which are measured at fair value.

c) Going Concern Basis

These financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

d) Use of Judgments and Estimates

The Fund makes assumptions and judgements that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Fund has appointed an actuary, Actuaries in Super Pty Ltd ("AiS"), to verify the acquisition cost of the TEPs by the Fund. AiS also reviews the value of the TEPs on a monthly basis.

e) Revenue and Income Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the amount can be reliably measured.

Changes in fair value of TEPs are recorded in accordance with the policies described in Note 3(h).

Interest income is recognised as the interest accrues using the effective interest method, which for floating rate financial assets is the rate inherent in the instrument.

All income is stated net of goods and services tax ("GST").

f) Expenses

All expenses are recognised in the statement of income or loss and other comprehensive income on an accruals basis.

Notes to the Financial Statements

3. Significant Accounting Policies (continued)

g) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to cash and which are subject to an insignificant risk of changes in value.

h) Financial Instruments

Financial assets and financial liabilities are recognised in the Statement of Financial Position when the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets

(a) Recognition and initial measurement

On initial recognition, a financial asset is classified as measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset shall be measured at amortised cost if both of the following conditions are met:

- (i) the asset is held within a business model, the objective of which is to hold assets in order to collect contractual cash flows.
- (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset shall be measured at fair value unless it is measured at amortised cost.

(b) Subsequent measurement

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, gain exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at fair value through profit or loss

These assets are subsequently measured at fair value. Net gains and losses, including any interest or distribution income, are recognised in profit or loss.

Notes to the Financial Statements

3. Significant Accounting Policies (continued)

h) Financial Instruments (continued)

(c) Derecognition

A financial asset is derecognised when the contractual rights to the cash flows from the financial assets expire or are transferred and no longer controlled by the entity.

Financial liabilities

(a) Classification and measurement

Financial liabilities are classified as measured at amortised cost or at fair value through profit or loss. A financial liability is classified as at fair value through profit or loss if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at fair value through profit or loss are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(b) Derecognition

A financial liability is removed from the Statement of Financial Position when the obligation specified in the contract is discharged or cancelled or expires.

The Fund's investments are classified as at fair value through profit or loss.

i) Taxation

Under current tax legislation, the Fund is not subject to income tax provided that the unitholders are presently entitled to the income of the Fund and that the Fund entirely distributes its taxable income.

The Fund has been granted a Private Binding Ruling number 1051489729469 from the Australian Tax Office ("ATO") to confirm the income tax treatment of the TEPs.

Tax deferred distributions may occur where the Fund distributes an amount of cash that exceeds the net income of the Fund allocated to the Fund's unitholders. Certain tax-deferred distributions that are not assessable to a unitholder may result in a reduction in the cost base of the units held by the unitholder. A capital gain will arise where those tax deferred distributions exceed the cost base of the units.

j) Distributions

The Fund distributes its distributable income, calculated in accordance with the Fund's Constitution and applicable tax legislation, to unitholders who are presently entitled to the income under the Fund's Constitution.

In accordance with the Information Memorandum dated 7 June 2019, from year 5 onwards distributions are anticipated to be paid quarterly in the year of maturity of the TEPs at the Trustee's sole discretion. An income distribution comprises the investor's share of any net income earned by the Fund. The entitlement to distributable income is calculated by dividing the entitlement of the class of units for the period by the number of units on issue as at the relevant distribution date.

Notes to the Financial Statements

3. Significant Accounting Policies (continued)

k) Trade and Other Payables

Payables include liabilities and accrued expenses owing by the Fund which are unpaid as at reporting date. Accruals and payables stated are inclusive of non-recoverable goods and services tax.

The distribution amount payable to unitholders as at the reporting date is recognised separately in the Statement of Financial Position when unitholders are entitled to the distributable income under the Fund's Constitution.

l) Applications and Redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

m) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax ("GST") except:

- where the amount of GST is not recoverable from the ATO, it is recognised as part of the acquisition of an asset or part of an item of expense; or
- for receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the ATO is recognised as a receivable or payable on the Statement of Financial Position. Cash flows are included in the Statement of Cash Flows on a gross basis.

The GST component of cash flows arising from investing activities which is recoverable from or payable to the ATO is classified as operating cash flow.

The GST incurred on the costs of various services provided to the Fund by third parties such as trustee fees, audit fees, management fees, fund administration and taxation fees and legal fees were subject to reduced input tax credits ("RITC") in accordance with legislation.

Notes to the Financial Statements

11. Fair value measurement

The Fund measures and recognises the following assets at fair value on a recurring basis:

- Financial assets at fair value through profit or loss (see Note 7)

The Fund does not subsequently measure any liabilities at fair value on a recurring basis, or any assets or liabilities at fair value on a non-recurring basis.

Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

- Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. (level 1)
- Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. (level 2); and
- Measurements based on unobservable inputs for the asset or liability. (level 3).

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Fund selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Fund are consistent with one or more of the following valuation approaches:

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity, plus any accrued interest that is owing on the financial instruments, if any.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Trust gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As outlined in the Fund's Information Memorandum, it was the Trustee's expectation that the investments in TEPs would be initially valued at cost and subsequently at fair value, using certain data and assumption. The acquisition cost of a TEP by the Fund and the consolidated Australian TEP valuation model calculation are verified by an independent service provider to the financial services industry.

There has been no change in the valuation techniques used to calculate the fair values disclosed in the financial statements.

Notes to the Financial Statements

12. Financial Risk Management

The most important types of financial risks to which the Fund is exposed to are market risk, credit risk and liquidity risk. The exposure to each of these risks, as well as the Fund's policies and processes for managing these risks are described below.

a) Market risk

Market risk embodies the potential for both loss and gains and includes currency risk, interest rate risk and other price risk. The Fund's strategy on the management of market risk is driven by the Fund's investment objective. The Fund's market risk is managed as required by the Trustee in accordance with the investment guidelines outlined in the Information Memorandum.

Cash flow and fair value interest rate risk

The Fund's cash and cash equivalents expose it to a risk of change in the fair value or future cash flows due to changes in interest rates.

The Fund's exposure to interest rate risk is set out in the following table:

30 June 2023

	Floating interest rate \$	Non- interest bearing \$	Total \$
Financial assets			
Cash and cash equivalents	205,300	-	205,300

Net exposure to interest rate risk	580,707	8,160,141	8,740,848

The following table demonstrates the sensitivity of the Fund's net assets attributable to unitholders and operating profit to a reasonable change in interest rates, with all variable constant. However, actual movements in the risk variables may be greater than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

b) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss.

Notes to the Financial Statements

12. Financial Risk Management (continued)

b) Credit risk (continued)

The Fund's maximum credit risk exposure at balance date in relation to each class of recognised financial asset is the carrying amount of those assets as indicated in the Statement of Financial Position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at reporting date.

Credit risk is managed and the losses which could arise from default by ensuring that parties to contractual arrangements have the appropriate credit rating or do not show a history of defaults. Financial assets such as cash at bank and investments in TEPs are held with high credit quality financial institution (rated equivalent A or higher by the major rating agencies).

An analysis of investments in TEPs by counter-party is set out in the table below.

	Financial Strength Rating	As at 30 June 2023 \$	As at 30 June 2022 \$
Insurer			
Resolution Life	A	9,493,961	7,933,419
MLC Ltd	A+	173,607	247,070
Total investments in TEPs		9,667,568	8,180,489

All receivables are monitored by the Manager. If any amounts owing are overdue these are followed up and if necessary, allowances are made for debts that are doubtful.

At the end of the reporting year, there are no issues with the credit quality of financial assets that are either past due or impaired, and all amounts are expected to be received in full.

c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Manager monitors the Fund's exposure to liquidity risk by ensuring that as required there is sufficient cash on hand to meet the contractual obligations of financial liabilities as they fall due.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting year. The amounts in the table are the contractual undiscounted cash flows.

INDEPENDENT AUDIT REPORT

Scope

I have audited the financial report of Aussie TEP Fund for the year ended 30 June 2023. The directors of the Trustee Company are responsible for the financial report. I have conducted an independent audit of the financial report in order to express an opinion on it to the Trustee.

My audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance whether the financial report is free of material misstatement. My procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion whether, in all material respects, the financial report is presented fairly in accordance with Accounting Standards and other mandatory professional reporting requirements so as to present a view which is consistent with my understanding of the Fund's financial position, the results of its operations and cash flows.

The audit opinion expressed in this report has been formed on the above basis.

Audit Opinion

In my opinion, the financial report presents fairly in accordance with applicable Accounting Standards and other mandatory professional reporting requirements and statutory requirements the financial position of Aussie TEP Fund as at 30 June 2023, and the results of its operations and its cash flows for the year then ended.

Aussie TEP Fund – Financial Statements for Year Ended 30 June 2023

I advise that I encountered no matters during the course of my audit that warranted referral to the Trustee of the Fund.

I received satisfactory explanations and documentary support for those transactions selected for testing; and I concluded, that the methodology for preparation of the financial statements was soundly based and provided for a true and fair view of the Fund's operations to 30 June 2023 and its financial position at that date.

Yours faithfully
