

Target Market Determination

Legal disclaimer

This Target Market Determination (TMD) is required under section 994B of the *Corporations Act 2001 (Cth)* (**the Act**). It sets out the class of consumers for whom the product, including its key attributes, would likely be consistent with their likely objectives, financial situation and needs. In addition, the TMD outlines the triggers to review the target market and certain other information. It forms part of One Managed Investment Funds Limited's design and distribution arrangements for the product.

This document is **not** a product disclosure statement and is **not** a summary of the product features or terms of the product. This document does not take into account any person's individual objectives, financial situation or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement (**PDS**) for the Cosmos Global Digital Miners Access ETF before making a decision whether to buy this product.

Important terms used in this TMD are defined in the TMD Definitions which supplement this document. Capitalised terms have the meaning given to them in the product's PDS, unless otherwise defined. The PDS can be obtained by contacting client services on +61 (2) 82770000 or on our website at <https://www.oneinvestment.com.au/cosmos>

Target Market Summary

This product is likely to be appropriate for a consumer seeking **access to new and emerging technologies and payment systems being global digital asset mining companies** to be used as a **satellite component** of their portfolio where the consumer has a **medium to long** investment timeframe and a **high** risk/return profile.

This product is unlikely to be appropriate for a consumer seeking capital preservation, capital guaranteed or income distribution.

Description of Target Market

This part is required under section 994B(5)(b) of the Act.

TMD indicator key

The Consumer Attributes for which the product is likely to be appropriate have been assessed using a red/amber/green rating methodology with appropriate colour coding:

In target market	Potentially in target market	Not considered in target market
------------------	------------------------------	---------------------------------

Instructions

In the tables below, Column 1, Consumer Attributes, indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering this product. Column 2, TMD indicator, indicates whether a consumer meeting the attribute in column 1 is likely to be in the target market for this product.

Generally, a consumer is unlikely to be in the target market for the product if:

- **one or more** of their Consumer Attributes correspond to a **red** rating, or
- **three or more** of their Consumer Attributes correspond to an **amber** rating.

Investment products and diversification

A consumer (or class of consumer) may intend to hold a product as part of a diversified portfolio (typically with an intended product use of *satellite/small allocation* or *core component*). In such circumstances, the product should be assessed against the consumer's attributes for the relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may seek to construct a conservative portfolio with a satellite/small allocation to growth assets. In this case, it may be likely that a product with a *High* or *Very High* risk/return profile is consistent with the consumer's objectives for that allocation notwithstanding that the risk/return profile of the consumer as a whole is *Low* or *Medium*. In making this assessment, distributors should consider all features of a product (including its key attributes).

Consumer Attributes	TMD Indicator	Product description including key attributes
Consumer's investment objective		
Capital Growth	Green	The Fund aims to provide investors with the performance of the Global Digital Miners Index (Index), before fees and expenses. Companies included in the Index will generally be high-growth companies with low dividend yields.
Capital Preservation	Red	
Capital Guaranteed	Red	
Income Distribution	Red	
Consumer's intended product use (% of Investable Assets)		
Solution/Standalone (75-100%)	Red	The Fund invests in global companies that comprise the Index.
Core Component (25-75%)	Amber	The Fund has <i>Medium</i> portfolio diversification.
Satellite/small allocation (<25%)	Green	Investors should use the Fund as a Satellite/smaller allocation.
Consumer's investment timeframe		
Short (≤ 2 years)	Red	The minimum suggested timeframe for holding investments in the Fund is at least 5 years.
Medium (> 2 years)	Amber	
Long (> 5 years)	Green	
Consumer's Risk (ability to bear loss) and Return profile		
Low	Red	The Fund has a risk band of High.
Medium	Amber	The Fund aims to provide investors with the performance of the Index before fees and expenses.
High	Green	
Very High	Green	

Consumer's need to withdraw money		
Daily	Green	As an exchange-traded product, the Fund is expected to be liquid and tradeable on the Australian Chi-X market under normal circumstances. However, there can be no assurances that there will be a liquid market for Units. The Responsible Entity has in place market making arrangements to assist in maintaining liquidity for the Fund on the Exchange, however, there is no guarantee that the Market Maker will fulfil its obligations.

Definitions

Term	Definition
Consumer's investment objective	
Capital Growth	The consumer seeks to invest in a product designed to generate capital return. The consumer prefers exposure to growth assets (such as shares or property) or otherwise seeks an investment return above the current inflation rate.
Capital Preservation	The consumer seeks to invest in a product to reduce volatility and minimise loss in a market down-turn. The consumer prefers exposure to defensive assets (such as cash or fixed income securities) that are generally lower in risk and less volatile than growth investments.
Capital Guaranteed	The consumer seeks a guarantee or protection against capital loss whilst still seeking the potential for capital growth (typically gained through a derivative arrangement). The consumer would likely understand the complexities, conditions and risks that are associated with such products.

Term	Definition
Income Distribution	The consumer seeks to invest in a product designed to distribute regular and/or tax-effective income. The consumer prefers exposure to income-generating assets (typically, high dividend-yielding equities, fixed income securities and money market instruments).
Consumer's intended product use (% of Investable Assets)	
Solution/Standalone (75-100%)	The consumer intends to hold the investment as either a part or the majority (up to 100%) of their total <i>investable assets</i> (see definition below). The consumer typically prefers exposure to a product with at least High <i>portfolio diversification</i> (see definitions below).
Core Component (25-75%)	The consumer intends to hold the investment as a major component, up to 75%, of their total <i>investable assets</i> (see definition below). The consumer typically prefers exposure to a product with at least Medium <i>portfolio diversification</i> (see definitions below).
Satellite (<25%)	The consumer intends to hold the investment as a smaller part of their total portfolio, as an indication it would be suitable for up to 25% of the total <i>investable assets</i> (see definition below). The consumer is likely to be comfortable with exposure to a product with Low <i>portfolio diversification</i> (see definitions below).
Investable Assets	Those assets that the investor has available for investment, excluding the residential home.
Portfolio diversification (for completing the key product attribute section of consumer's intended product use)	
Low	Single asset class, single country, low or moderate holdings of securities - e.g. high conviction Aussie equities.

Term	Definition
Medium	1-2 asset classes, single country, broad exposure within asset class, e.g. Aussie equities “All Ords”.
High	Highly diversified across either asset classes, countries or investment managers, e.g. Australian multi-manager balanced fund or global multi-asset product (or global equities).
Consumer’s intended investment timeframe	
Short (≤ 2 years)	The consumer has a short investment timeframe and may wish to redeem within two years.
Medium (> 2 years)	The consumer has a medium investment timeframe and is unlikely to redeem within two years.
Long (> 5 years)	The consumer has a long investment timeframe and is unlikely to redeem within five years.
Consumer’s Risk (ability to bear loss) and Return profile	
A consumer’s desired product return profile would generally take into account the impact of fees, costs and taxes.	
Low	The consumer is conservative or low risk in nature, seeks to minimise potential losses (e.g. has the ability to bear up to 1 negative return over a 20 year period (SRM 1 to 2)) and is comfortable with a low target return profile. Consumer typically prefers defensive assets such as cash and fixed income.
Medium	The consumer is moderate or medium risk in nature, seeking to minimise potential losses (e.g. has the ability to bear up to 4 negative returns over a 20 year period (SRM 3 to 5)) and comfortable with a moderate target return profile. Consumer typically prefers a balance of growth assets such as shares, property and alternative assets and defensive assets such as cash and fixed income.
High	The consumer is higher risk in nature and can accept higher potential losses (e.g. has the ability to bear up to 6 negative returns over a 20 year period (SRM 6)) in order to target a higher target return profile.

Term	Definition
	Consumer typically prefers predominantly growth assets such as shares, property and alternative assets with only a smaller or moderate holding in defensive assets such as cash and fixed income.
Very high	The consumer has a more aggressive or very high risk appetite, seeks to maximise returns and can accept higher potential losses (e.g. has the ability to bear 6 or more negative returns over a 20 year period (SRM 7) and possibly other risk factors, such as leverage). Consumer typically prefers growth assets such as shares, property and alternative assets.
Consumer's need to withdraw money	
Daily/Weekly/Monthly/Quarterly/ Annually or longer	The consumer seeks to invest in a product which permits redemption requests at this frequency under ordinary circumstances and the issuer is typically able to meet that request within a reasonable period.
Distributor Reporting	
Significant dealings	<p>Section 994F(6) of the Act requires distributors to notify the issuer if they become aware of a significant dealing in the product that is not consistent with the TMD. Neither the Act nor ASIC defines when a dealing is 'significant' and distributors have discretion to apply its ordinary meaning.</p> <p>The issuer will rely on notifications of significant dealings to monitor and review the product, this TMD, and its distribution strategy, and to meet its own obligation to report significant dealings to ASIC.</p> <p>Dealings outside this TMD may be significant because:</p> <ul style="list-style-type: none"> • they represent a material proportion of the overall distribution conduct carried out by the distributor in relation to the product, or • they constitute an individual transaction which has resulted in, or will or is likely to result in, significant detriment to the consumer (or class of consumer).

Term	Definition
	<p>In each case, the distributor should have regard to:</p> <ul style="list-style-type: none"> • the nature and risk profile of the product (which may be indicated by the product’s risk rating or withdrawal timeframes), • the actual or potential harm to a consumer (which may be indicated by the value of the consumer’s investment, their intended product use or their ability to bear loss), and • the nature and extent of the inconsistency of distribution with the TMD (which may be indicated by the number of red or amber ratings attributed to the consumer). <p>Objectively, a distributor may consider a dealing (or group of dealings) outside the TMD to be significant if:</p> <ul style="list-style-type: none"> • it constitutes more than half of the distributor’s total retail product distribution conduct in relation to the product over the reporting period, • the consumer’s intended product use is <i>Solution / Standalone</i>, or • the consumer’s intended product use is <i>Core component</i> and the consumer’s risk (ability to bear loss) and return profile is <i>Low</i>.
