Notes to the Financial Statements

1. General information

This financial report covers OAM Select Income Fund (ARSN 646 952 267) (the "Fund"), an unlisted registered managed investment scheme.

The Responsible Entity of the Fund is One Managed Investment Funds Limited (ACN 117 400 987; AFSL 297042) ("OMIFL" or the "Responsible Entity"). The Responsible Entity's registered office and principal place of business is Level 16, Governor Macquarie Tower 1 Farrer Place Sydney, NSW, 2000.

The Fund was constituted on 4 January 2021, registered on 20 January 2021 and commenced operations on 1 August 2021. The financial statements cover the financial year ended 30 June 2023.

The Investment Manager of the Fund is Oreana Asset Management, a division of Oreana Financial Services Ltd (CR No. 0766472) ("OAM" or "Investment Manager"). OAM is incorporated in Hong Kong and has been appointed as a corporate authorised representative (Authorised Representative Number: 001285005) of Oreana Financial Services Pty Ltd (ACN 607 515 122; AFSL 482234).

The principal activity of the Fund during the year ended 30 June 2023 was to invest in a portfolio of loans to borrowers in, and developers of, residential, commercial, retail and industrial real estate across Australia.

2. Adoption of new and revised Accounting Standards

Standards and interpretations affecting amounts reported in the current period

The Fund has adopted all the new and revised Standards and interpretations issued by the Australian Accounting Standards Board ("AASB") that are relevant to its operations and are effective for the current financial reporting year ended 30 June 2023.

Standards and Interpretations issued but not yet mandatory

There are no other standards that are not yet effective and that are expected to have a material impact on the Fund in the current or future reporting periods and on foreseeable future transactions.

3. Summary of significant accounting policies

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the Directors have determined are appropriate to meet the needs of members. The financial statements have been prepared on an accruals basis and are based on historical costs unless stated otherwise in the notes.

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements.

(a) Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards, the Corporations Act 2001, other authoritative pronouncements and interpretations of the Australian Accounting Standards Board and the Fund's Constitution.

Compliance with Australian Accounting Standards, as issued by the AASB, ensures that the financial statements and notes there to comply with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

Notes to the Financial Statements

3. Summary of significant accounting policies (continued)

(b) Basis of preparation

This general purpose financial report has been prepared using historical cost basis.

The Statement of Financial Position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and net assets attributable to unitholders. The amounts expected to be received or settled in relation to these balances cannot be readily determined.

All amounts are presented in Australian dollars as the functional and presentational currency of the Fund.

(c) Going concern basis

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash held at bank.

(e) Revenue and other income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Interest income is recognised as the interest accrues using the effective interest rate method, which is the rate that exactly discounts future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Other income is recognized when it is received or when the right to receive the payment is established.

All revenue is stated net of the amount of goods and services tax.

(f) Taxation

Under the current tax legislation, the Fund is not subject to income tax provided that the unitholders are presently entitled to the income of the Fund and that the Fund entirely distributes its taxable income.

There is no taxable income of the Fund to which the unitholders are not currently entitled. Additionally, the Fund's Constitution requires the distribution of the full amount of the net taxable income of the Fund to unitholders each year. As a result, deferred taxes have not been recognised in the financial statements in relation to the differences between carrying amounts of assets and liabilities and their respective tax bases. This includes taxes on capital gains which could arise in the event of a sale of investments for the amount at which they are stated in the financial statements. In the event that the taxable gains are realised by the Fund, these gains would be included in the taxable income and assessable in the hands of the unitholders.

(g) Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost, less any allowance for expected credit losses.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Notes to the Financial Statements

3. Summary of significant accounting policies (continued)

(h) Trade and other payables

Trade and other payables represent the liabilities for goods and services received by the Fund that remain unpaid at the end of the reporting period. The balance is recognized as a current liability with the amounts normally paid within 30 days of recognition of the liability.

Trade and other payables are recognised when the Fund becomes obliged to make future payments resulting from the purchase of goods and services.

(i) Goods and services tax ("GST")

Revenues, expenses and assets are recognized net of the amount of GST, except:

- Where the amount of GST is not recoverable from the taxation authority (Australian Taxation Office ("ATO")), it is recognised as part of acquisition of an asset or part of an item of expense; or
- For receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to the tax authority is included as part of receivables or payables. Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

The GST incurred on the costs of various services provided to the Fund by third parties such as management fees and administration fees were subjected to the Reduced Input Tax Credits ("RITCs") in accordance with legislation.

(j) Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise of cash and cash equivalents, held to maturity investments and receivables. This classification is determined by the purpose underpinning the acquisition of the investment.

Initial recognition and measurement

Financial instruments, incorporating financial assets and financial liabilities, are initially recognised using trade date accounting, i.e., when the Fund becomes party to the contractual provisions of the instrument.

Financial assets

These instruments are measured at amortised cost as they are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and their contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For loans the Fund applies a simplified approach in calculating expected credit losses (ECLs). Therefore the Fund does not track changes in credit risk, but instead recognises a loss allowance based on the ECLs at each reporting date. The Fund has established a provision matrix that is based on its historical credit loss experience, adjusted for forward looking factors specific to the debtors and the economic environment.

Notes to the Financial Statements

3. Summary of significant accounting policies (continued)

(j) Financial instruments (continued)

Financial assets (continued)

Effective interest rate method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets or, where appropriate, a shorter period. Income is recognised on an effective interest rate basis for debt instruments other than those financial assets 'at fair value through profit or loss'.

Derecognition

Financial assets are derecognised if the Fund's contractual rights to the cash flows from the financial assets expire, or if the Fund transfers the financial assets to another party without retaining substantially all the risks and rewards attached to the asset.

Financial liabilities

The Fund's financial liabilities include trade and other payables, which are measured at amortised cost using the effective interest rate method. Financial liabilities are derecognised if the Fund's obligations specified in the contract expire or are discharged or cancelled.

Derivative financial instruments

During the financial year, the Fund did not hold any derivative financial instruments to hedge its interest rate risk exposures.

(k) Distributions

The Fund distributes its distributable income, calculated in accordance with the Fund's Constitution, Product Disclosure Statement (PDS) and applicable tax legislation, to unitholders who are presently entitled to the income under the Fund's Constitution. Distributions to unitholders are presented in the Statement of Comprehensive Income as finance costs.

(l) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(m) Net assets attributable to unitholders

Units are redeemable at the unitholder's option, however, under the Fund's Constitution, the Responsible Entity may suspend the acceptance of applications, withdrawal requests, the withdrawal of units and/or the payment of withdrawal amounts if the Responsible Entity believes that it is in the best interest of the unitholders as a whole, including if:

(a) it is desirable for the protection of the Fund;

(b) it suspects or is advised that the payment of the withdrawal amount may result in a contravention of anti-money laundering and counter-terrorism laws, financial transaction laws or other relevant laws to which the Responsible Entity is subject;

Notes to the Financial Statements

3. Summary of significant accounting policies (continued)

(m) Net assets attributable to unitholders (continued)

(c) an emergency (including an emergency caused by a mechanical or electronic malfunction) or such other circumstances exist and as a result:

- (i) it is not reasonably practicable for the Responsible Entity to acquire or dispose of assets or determine the application price or withdrawal price fairly;
- (ii) the Responsible Entity's ability to acquire or dispose of assets or determine the application price or withdrawal price fairly is, or may be, significantly adversely affected; or
- (iii) sufficient assets of the Fund cannot be realised at an appropriate price, in a timely manner or on adequate terms or otherwise.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Fund. This amount represents the expected cash flows on redemption of these units.

Units are classified as equity when they satisfy the following criteria under *AASB 132 Financial instruments Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributed to the puttable financial instrument over the life are based substantially on the profit or loss.

As this is a multi-class fund, units are classified as financial liabilities as they do not meet the requirements of equity in accordance with *AASB 132 Financial instruments: Presentation*.

(n) Critical accounting judgements and key sources of estimation uncertainty

In the application of the accounting policies, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The assumptions and methods used in the determination of the value of financial instruments are outlined in Note 3(j) of this financial report.

Impairment

Changes in facts and in management's evaluations and assumptions may give rise to further impairment losses, or reversals.

Notes to the Financial Statements

3. Summary of significant accounting policies (continued)

(n) Critical accounting judgements and key sources of estimation uncertainty (continued)

Financial assets are also periodically reviewed for impairment. Provisions for losses on trade receivables have been made based on an evaluation of individual accounts. Actual losses may turn out significantly different from the evaluations made based on the knowledge and assumptions at the time of approving the accounts.

4. Financial risk management objectives and policies

The Fund's activities expose it to a variety of financial risks: market risk (including interest rate risk), liquidity risk and credit risk.

The Fund's overall risk management programme focuses on ensuring compliance with the PDS. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund's policy allows it to use derivative financial instruments to both moderate and create certain risk exposures.

(a) Market risk

Market risk is the risk that the fair value of future cash flows will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices liquidity. Market risk is managed and monitored on an ongoing basis by the Investment Manager.

The Fund's investments are contractual in nature with pre-defined outcomes, including interest earned and the duration of the Loans. Loans are secured against underlying Security Property or, in specific cases, include a First Loss Guarantee, meaning the Fund will be able to recover any outstanding amounts on exercising its security interest. As a result, it is expected that the Fund will perform according to expectations in a broad variety of market conditions. However, there may be certain market conditions where the income paid to Investors or repayment of the principal amount by Borrowers may be impacted, including as a result of:

- changes to the base interest rate in Australia, resulting in an increase or decrease to the income payable to investors;
- specific development, investment, corporate or external risks, resulting in the Fund having less income to pay to investors;
- decline in property prices, resulting in property investments being worth significantly less or developments being delayed or not proceeding;
- economic recession, resulting in a decrease in the Fund's finances, as well as its Borrower's finances. In extreme circumstances, this may also have an impact on the ability of the Borrower to support a First Loss Guarantee; and
- adverse economic environments, such as a significant decline in property values or a rise in unemployment.

To the extent the above scenarios severely negatively impact the Fund, the Investment Manager and Responsible Entity will determine the best course of action to protect the return of capital to investors by the end of their investment term. These scenarios will also likely reduce investment opportunities for the Fund and may result in the Investment Manager and Responsible Entity temporarily reducing or restricting applications for new Units in the Fund.

Interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

Notes to the Financial Statements

4. Financial risk management objectives and policies (continued)

(a) Market risk (continued)

The Fund's cash and cash equivalents expose it to a risk of change in the fair value or future cash flows due to changes in interest rates. The table below summarises the Fund's exposure to interest rate risk.

The Funds interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Fund's exposure to interest rate risk is set out in the following table:

	Floating interest rate	Fixed interest rate	Non- interest bearing	Total

The following table demonstrates the sensitivity of the Fund's net assets attributable to unitholders and operating profit to a reasonable change in interest rates, with all other variables constant. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

4. Financial risk management objectives and policies (continued)

(b) Liquidity risk

Liquidity risk is the risk that loans are not actively traded and therefore may not be readily convertible to cash without some loss of capital to the Fund. Investors are required to commit their funds for the minimum Investment Term applicable to the Class of Units in which they invest. While it is intended that the Fund will operate as a Liquid fund, the Fund may become illiquid due to market developments.

The table below analyses the Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at balance sheet date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Net assets attributable to unitholders is not considered a financial liability but has been included below as units are redeemed on maturity dates at the unitholder's option. However, the Responsible Entity does not envisage that the contractual maturity disclosed in the table below will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

4. Financial risk management objectives and policies (continued)

(c) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due, causing a financial loss to the Fund.

This is a risk that Borrowers may not be able to meet their obligations in full and not pay interest and repay principal or other financial obligations on time in accordance with the Loan agreement. The value of the loan might become impaired where underlying Loans are not repaid in full. This could result in a loss to an Investor of its capital invested in the Fund and may mean the Fund is unable to pay any income or make any distributions to the Investor. This risk is partly mitigated by the underlying Security Property, or, in specific cases, a First Loss Guarantee as set out in Note 8. However it is not possible to completely eliminate credit risk and Borrower default on a loan may be beyond our control. Equally, with loan to value ratios set at 70% and 80%, reductions in property values can have further effects on credit risks.

In accordance with the Fund's policy, the Investment Manager monitors the Fund's credit position on an ongoing basis.

Maximum exposure to credit risk

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets.

5. Interest income

The following table provides information about the interest income generated from different sources during the financial year ended 30 June 2023.

	Year ended 30 June 2023	4 January 2021 to 30 June 2022
	\$	\$
Loan interest	1,109,590	279,067
Bank interest	114,621	6,935
Total for the year/period	1,224,211	286,002

6. Management fees

Management fees are the fees payable under the Fund's Constitution to the Responsible Entity for the management of the Fund.

In accordance with the Fund's PDS, the Responsible Entity is entitled to a fee of 0.95% per annum of the Fund's Net Assets Value (before fees), which includes the fees payable to the Responsible Entity and the Investment Manager.

The following fees were incurred by the Fund during the year ended 30 June 2023:

- Total management fees for the year ended 30 June 2023: \$192,853 (30 June 2022: \$91,016).
- Management fees payable as at 30 June 2023: \$12,148 (30 June 2022: \$14,390).

Notes to the Financial Statements

6. Management fees (continued)

The former responsible entity of the Fund, for the period from 4 January 2021 to 6 January 2022, was Millinium Capital Managers Limited (ACN 111 283 357; AFSL 284 336) ("Millinium" or the "Former Responsible Entity"). The registered office and principal place of business of Millinium is Level 13 Suite 1301B, Margaret Street, Sydney NSW 2001.

7. Cash and cash equivalents

(a) Cash and cash equivalents include cash at bank. Cash at the end of the year as shown in the Statement of Cash Flows is reconciled to the related items in the Statement of Financial Position as follows:

Total	16,489,887	16,489,887	19,352,470	19,352,470

11. Capital management

The Fund's objectives for managing capital are:

- to invest the capital in investments meeting the description, risk exposure and expected return indicated in the Fund's PDS;
- to achieve consistent returns while safeguarding capital by investing in secured loans;
- to maintain sufficient liquidity to meet the investment terms of Unit Classes and the ongoing expenses of the Fund; and
- to maintain sufficient size to make the operation of the Fund cost-efficient.

As a result of the ability to issue, redeem and transfer units, the capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund as stated in the Fund's PDS.

There are 4 classes of Units in the Fund:

- Class A Ordinary Units
- Class B Ordinary Units
- Class C Ordinary Units
- Class D Ordinary Units

Each Class of Units has a different Investment Term as shown in the table below. Generally, investors must initially invest in Class A Units which are subject to an 18-month Investment Term, following which investors may withdraw their investment or, at the Investment Manager's discretion and subject to availability of Units in other Unit classes, switch to an investment in Class B, C or D Units with shorter Investment Terms. The Investment Manager may however, at its discretion and subject to availability, permit investors to initially invest in Class B, C or D Units without first having invested in Class A Units.

Notes to the Financial Statements

11. Capital management (continued)

The Investment Term begins on the Dealing Day on which the application is accepted and runs for the Investment Term relevant to that Class.

Unit Class	Investment Term	Notice Period (before end of investment term)	Withdrawal/Switch Request (within the month specified below)
Class A	18 months	6 months	12th month
Class B	12 months	4 months	8th month
Class C	6 months	3 months	3rd month
Class D	3 months	1 months	2nd month

At the end of an Investment Term, an investment is automatically re-invested on the same terms as it was initially invested (it is automatically rolled over) unless a withdrawal request has been given to the Responsible Entity within the Withdrawal/Switch Request Window.

Accordingly, if the unitholder does not lodge a withdrawal request within the Withdrawal/Switch Request Window, the investment will be automatically rolled over in the same Class of Units and will not have another opportunity to withdraw until the expiration of the next Investment Term (and only if a withdrawal request given within the applicable Withdrawal/Switch Request Window for that new Investment Term).

12. Related party transactions

Transactions with related parties have taken place at arm's length and in the ordinary course of business.

Fund administration fees of \$58,189 were paid for the year ended 30 June 2023, and \$3,643 was payable as of the end of the year (30 June 2022: \$6,380).

None of the above has received any remuneration directly from the Fund in relation to these services and they are remunerated out of the Management Fee. To the extent there is a shortfall to these expenses, they will be paid by the Investment Manager.

Financial assets - loans

The Investment Manager sources potential borrowers from an extensive network of property groups (including related parties and associates of the Investment Manager) to meet the objectives of the Fund.

There were loans advanced to borrowers that are related parties and associates of the Investment Manager during the year ended 30 June 2023, of which the remaining balance as at year end was \$10,477,262 (30 June 2022: \$11,584,000). These loans were for site and property investments in Australia and secured with first ranking registered mortgages over real property.

INDEPENDENT AUDIT REPORT TO THE UNITHOLDERS OF OAM SELECT INCOME FUND

Opinion

We have audited the financial report, being a general purpose financial report of OAM Select Income Fund (the 'Fund'), which comprises the statement of financial position as at 30 June 2023, the statement of profit or loss and other comprehensive income, statement of changes in net assets attributable to unit holders and cash flow statement for the period then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion:

- a) the financial report of OAM Select Income Fund is in accordance with the *Corporations Act 2001*, including:
 - i) giving a true and fair view of the financial position of the Fund for the period ended 30 June 2023 and of its performance for the period ended on that date; and
 - ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.
- b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 3.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors of the responsible entity are responsible for the other information. The other information comprises the Directors' Report for the year ended 30 June 2023 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

INDEPENDENT AUDIT REPORT TO THE UNITHOLDERS OF OAM SELECT INCOME FUND

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the responsible entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to wind-up the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf This description forms part of our auditor's report.
